

The Phoenix™ by HAYWARD®

Unstoppable suction power,
all pool terrain.

The Phoenix™ 2X SUCTION CLEANERS

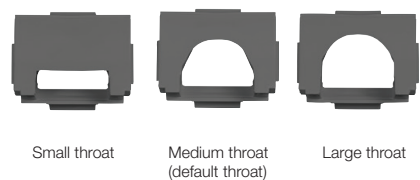

Total System: Pumps | Filters | Heating | **Cleaners** | Sanitisation | Automation | Lighting | White Goods

Robust design built for a reliable clean.

Optimal suction at almost any flow.

Three easily interchangeable throats improve suction performance at lower flow and allow larger debris to pass. As such, Phoenix is ideal for use with variable-speed pumps.

End-to-end cleaning.

Multiple pre-programmed steering sequences ensure that Phoenix covers both deep and shallow ends equally, including walls.*

Expertly navigates any surface*.

Patented robust tyre treads provide superior climbing power and obstacle maneuverability - especially main drains.

Maintains constant suction.

Phoenix's patented adjustable roller skirt maintains optimal suction on uneven surfaces.

* Wall climbing capability and pool coverage may be affected by specific pool shapes and surfaces. The cleaner may not climb the wall under certain conditions.

Equipped with patented V-Flex® variable vane turbine technology, The Phoenix™ easily picks up larger dirt and debris while virtually eliminating clogs.

MODEL DESCRIPTION:	
Phoenix 2-Wheel Drive Suction Cleaner	PES22CSTHBA
FEATURE	PHOENIX 2X
Hose Length	10m
Pool Size	4.7m X 9.5m
Pool Surface	Concrete, Vinyl, Fiberglass,* Tile,* Pebble
Minimum Pump Size	132L/min
Drive Sequence	2.4m to 3m

*Optional tape tyres may be required for smoother surfaces

PO Box 4384 | Dandenong South, VIC, 3164
