

Powerline

SAND FILTER

Sparkling water, minimum care.

The Powerline Top Mount Sand Filters offer the latest in pool technology with smooth, efficient flow and totally balanced backwashing. For crystal clear sparkling water with minimum care these Powerline Sand Filters set a new standard for value, performance and dependability.

SPARKLING WATER.

Set the standard, with minimum care.

Features and benefits:

• 6 Valve/ Filter Positions

Complete with a simple to read handle for easy selection

• Umbrella-Fold Self Cleaning Laterals

Precision engineered for balanced flow and backwashing

• Easy To Service

Umbrella-Fold Self Cleaning Laterals allows for easy servicing

• Integral Sight Glass

Lets you see when the backwashing cycle is completed

• Unique Folding Ball Joint Design

Allows lateral assembly to be easily accessed for simple servicing

• Corrosion-Proof Tank

High density blown and solid coloured polyethelene capable of resisting bad weather with minimum maintenance

• Clamping Collar

Allows the valve the ability to turn through 360 degrees facilitating connection

Setting the new standard for performance & value

These sand filters feature unitized construction of corrosion-proof, polymeric material and self-cleaning, 360 degree slotted laterals. A versatile, six position control valve offers easy operation and maximum efficiency. For use with in-ground pools of all types and sizes, in-ground spas and water features, ponds or fountains. Available in 21" and 24" complete with unions.

Description	Effective Filtration Area (m ²)	In/Out (mm)	Flow Rate (L/min)	Sand (Kg)
21"	0.20	40	166	100
24"	0.28	40	233	150
